

**First record of the Euaesthetine genus  
*Schatzmayrina* Koch in the Neotropics**  
(Coleoptera: Staphylinidae)<sup>1)</sup>

Volker PUTHZ

**Abstract:** *Schatzmayrina brasiliانا* n. sp., first record of this formerly only from the Ethiopian and Oriental region known Euaesthetine genus in the Neotropics, is described from Brazil, and a key to the genus including new distributional data is presented.

**Zusammenfassung:** *Schatzmayrina brasilianna* n. sp. wird aus Brasilien beschrieben, sie stellt den ersten Nachweis dieser bisher nur aus der Äthiopis und Orientalis bekannten Euaesthetinen-Gattung für die Neotropis dar. Ein Bestimmungsschlüssel der Gattung mit neuen Verbreitungsangaben wird vorgelegt.

**Key words:** Coleoptera, South America, Staphylinidae, Euaesthetinae, *Schatzmayrina*, new species

### Introduction

The Euaesthetine genus *Schatzmayrina* Koch was described 1934 from Egypt, later on from the Democratic Republic of Congo and from Angola (KISTNER 1961, 1962). First records from the Oriental region (India, Sri Lanka, Myanmar) have been published by PUTHZ (1978), who revised the hitherto known taxa, synonymized three of them and described two new subspecies. A second species of the genus (from the Ivory Coast) was described in 1989 by PUTHZ. New records from various
